

ASSOCIATION DES CLUBS DE CRICKET DU SUD-OUEST

Supplementary Regulation

Net Run Rate (NRR)

Version date: 20240301

- 1. **NRR (Net Run Rate)** will be used as and where ACCSO Committee decides that a mechanism is needed to separate teams in the following circumstances:
 - In a League format, where two or more teams finish the season with the same number of points;
 - In a knock-out format, where a match ends with the 2 teams having scored the same number of runs;
 - In a T20 competition, where the day ends with all the participating teams having won the same number of matches. Applies both to a situation where 2 teams play each other twice on the same day, including in a 3-team round-robin situation;
 - Where a match cannot be completed on the scheduled day and with no possibility of a replay/postponement.

2. **Application:** The regulations for each competition will specify whether NRR applies.

3. **The NRR of each team is calculated as follows:**

$$\frac{\text{(runs scored \#)}}{\text{(-----)}} \text{ minus } \frac{\text{(runs conceded \#)}}{\text{(-----)}} \\ \text{(overs faced \#)} \qquad \qquad \qquad \text{(overs bowled \#)}$$

Total of runs/ overs in all (1 to n) of the matches concerned.
