

ASSOCIATION DES CLUBS DE CRICKET DU SUD-OUEST

League 2022 - Supplementary Regulation

Separating teams equal on points at end of Pool Phase

1. At the end of the Pool phase, the team with most points will be the winner and will play in the Final match..
2. If two or more teams finish the Pool Phase with the same number of points, they will be separated on **NRR (Net Run Rate)**.
3. NRR is calculated as follows:

(runs scored divided by overs faced) minus (runs conceded divided by overs bowled).
4. For each of the tied teams, NRR will be calculated on the **total** runs/overs for **all** the **valid** matches which they played across the full Pool campaign.
5. The team with the best global NRR will be the Pool winner.
6. What is **not** a valid match **for the purposes of NRR calculations**?
 - 6.1. No-result matches (abandoned/forfeited)
 - 6.2. Matches where the overs bowled/received have not been reported via the Match Report form..
7. This supplementary regulation has been approved by ACCSO Committee and replaces any previous ACCSO regulation.
